

The Bibbulmun Track Vision

The Bibbulmun Track is WA's world-class, long distance walking track, stretching 1000 kilometres from Kalamunda in the Perth Hills to Albany on the south coast.

Passing through nine rural towns and many popular scenic spots, walkers can enjoy day walks and the hospitality of local accommodation or embark on a wilderness adventure staying at the purpose-built campsites along the way.

From the jarrah and marri, and karri forests to coastal heathlands the Track traverses some of the most beautiful and wild areas of the South West.

OUR VISION for the Bibbulmun Track

The Bibbulmun Track is protected, well maintained and renowned as a sustainable long-distance walk trail of international significance and quality.

These qualities of the Track should be retained:

- A simple wilderness path through the bush.
- A track that gives people mental and physical, yet accessible, challenges.
- A track that fosters a sense of community and camaraderie among its users.
- A track that provides opportunities for solitude and personal growth.
- A track that provides a peaceful and tranquil experience.

These principles should govern the Track:

- The natural wilderness of the Australian bush should be retained as much as is possible.
- Facilities, structures and regulations should be simple and pragmatic.
- Materials and design features should be rustic, minimalist and practical and not detract from the predominant sense of a natural, primitive environment.
- Trail markings should retain the original intention and characteristics of being functional, unobtrusive and sympathetic to the surroundings and be placed with appropriate regularity.
- Track improvements, including shelters, bridges, toilets and other facilities should be constructed to provide a minimum level of public safety.
- The Track should endeavour to inform and educate users into the Aboriginal and recent history of the land through which the Track passes.

Feel the spirit of Australia's south west
